

### **3D PartStream.NET Website Privacy Policy**

SolidWorks Corporation would like to thank you for using 3D PartStream.NET (SM) service. 3D PartStream.NET provides a means for manufacturers who design products using computer-aided design software (a "Publisher") to publish such a model to an internet catalog in order to enable public users of the internet ("Users") to view from various perspectives, reconfigure and download a 3D model. We know Publishers and/or Users may have questions regarding the privacy of their interactions on the internet. We hope this privacy policy statement will answer any questions you may have, but if it does not, please feel free to contact us at the email address or postal address shown below.

#### **Using 3D PartStream.NET Service**

Many of the manufacturers who make their models available to the public via 3DPartStream.NET require the user to register with them or with SolidWorks in order to access or download their models. In such cases, if you do not provide the registration information, which may include your name and contact information, you will not be able to access the models. SolidWorks shares the registration information it collects via the 3DPartStream.NET service with the manufacturers whose models are accessed. You should refer to the privacy policy of any such manufacturer to understand how they will treat your information.

The 3DPartStream.NET service may also collect information such as number of visits, average time spent on 3DPartStream.NET-enabled sites, models accessed, etc. SolidWorks and the manufacturers may use this information to analyze how people use our service and generate ideas on how the service might be improved.

#### **The Use of Personal Information**

SolidWorks may use the personal information you provide us for a variety of purposes, including authentication and marketing. We may use the information to inform you of special offers, upgrades and other SolidWorks products and services that may be of interest to you. We may also share your information with SolidWorks partners or other companies and organizations whose products we think may be of interest to you.

If you do not wish your information to be shared with other SolidWorks partners or other companies (beyond those whose models you have accessed) or if you do not wish to receive information about additional SolidWorks products or services, please let us know (contact information below) and we will respect your wishes. You should contact the manufacturers whose models you have accessed if you wish to request that they no longer use your information.

SolidWorks stores the personal data of customers and web site visitors indefinitely and may maintain and process such information directly or indirectly in one or more databases. If you provide personal information to SolidWorks, you agree and consent to SolidWorks' storage and usage of this information anywhere that SolidWorks and its affiliates maintain offices, for a variety of purposes, including those described above.

SolidWorks may also disclose such personal information if required by law or if SolidWorks believes in good faith that such disclosure is reasonably necessary to comply with legal process (such as a warrant, subpoena or other court order) or to protect the rights, property or personal safety of SolidWorks, our customers or the public.

#### **Updating Personal Information and "Opting Out"**

SolidWorks wants to ensure that the information it collects is accurate. Please notify us of any change to your address, phone number, email address or other information by sending us an email message at [privacy@solidworks.com](mailto:privacy@solidworks.com) or by notifying us in writing at

SolidWorks Corporation  
300 Baker Avenue  
Concord, MA 01742  
Attn: Legal Department

If at any time you wish to “opt out” of receiving information from SolidWorks or its partners or other companies, please notify us by sending us an email or written message at the addresses shown above. Please note that due to lead times on certain mailings and other contacts, you may continue to receive contacts for a period following your “opt out” notification.

### **Third Party Actions**

SolidWorks does not monitor nor control the acts and postings of the Publishers and Users of the 3D PartStream.NET services. Therefore, SolidWorks is not responsible for any actions of Publishers, Users or third parties.

### **Changes to this Policy**

SolidWorks may change this policy from time to time. Any changes will be posted to this site, so we encourage you to review our privacy policy from time to time.

Rev. May, 2005 3D PartStream.NET is a service mark of SolidWorks Corporation.
